PRESS RELEASE

In spite of the inclement weather condition, twenty-five (25) youth environmental warriors residing within the Zamboanga Peninsula actively participated and enjoyed the WINNING ADVOCATES FOR VERDANT EARTH (WAVE) Camp on May 12-13, 2022 at Camp Limbaga, Pasonanca, Zamboanga City.

The Wave Camp 2022 is a collaborative effort with the DENR Zamboanga Peninsula and I CAN MAKE A DIFFERENCE aimed to empower and enlighten emerging youth environmental leaders as well as to catalyze environmental education through strengthening our partnership with the youth sector.

Experts in the different fields of environmental education especially on the 7 environmental laws and principles, Biodiversity, Climate Change, Youth for Environmental Advocacy, Project Management and Resource Mobilization, Public Speaking and Project Pitching, and Technical Writing were present during the said activity.

Aside from the lectures, the campers enjoyed many games and physical activities that amplify their learnings on environmental protection and preservation.

The Environmental Management Bureau IX together with its partners would continue to conduct engaging, environmental youth activities that would produce a strong network of youth leaders dedicated to environmental stewardship.
